Start Date Jun 1, 2025
End Date Nov 30, 2026
EC Contribution 67,030 EUR
Topics European identity and values

Project Summary

Background

The Qualification Centre of Peniche Secondary School was created from the previous experience of a training Centre for adults, the "Novas Oportunidades" programme. It is a structure dedicated to adult qualification and training, for those who have not completed their basic or secondary levels. We think that the ERASMUS+ by the opportunities that provides will enrich our learners' training process.

Objectives

The targets of our Qualification Centre are very diverse. It involves active or unemployed learners over 23 years that engage in scholarly or professional development. The main goal is to provide our trainees the opportunity of experimenting new professional realities, opening their minds to technological innovation and making the sharing of ideas and experiences possible, in order to improve their personal and professional behaviour.

Impact

Apart from the relevant training processes, our intention is that learners get into contact with innovative strategies concerning the social service involving youngsters and aged people. Our intention is also that this experience reflects itself on the quality of the service provided by the institutions where our learners work. Also, on a personal level, we contribute to improving their self-esteem, initiative, entrepreneurship, to improvement of their linguistic and professional skills.
